

Beaconside Primary & Nursery School

Dear Parents and Carers,

In geography this term, the children have been learning about the Alps and why people visit them. On Monday 6th October, Year 5 will be leaving school to investigate what there is to do in our local area.

We will walk through Rubery Village and the local park before returning back to school. Along the way, the children will be investigating what the local area offers. This experience will help the children to understand key geographical concepts such as land use, human features and map work.

The children will leave school at 10.30am and will be back for lunchtime. The children will need a coat with them on this day.

Kind regards,
Miss Sheen.
